## **REALIZATION OF DISTANCE LEARNING TECHNIQUE FOR PREPARATION OF SPECIALIZED EXAM ACCORDING OFFICIAL GAZETTE NO. 60 P. 3179**

### **ABSTRACT**

This paper presents the experiences gained while deploying the distance learning technology for the specialized exams on preparations for management with energy objects, devices and equipment according to the Official Paper no.60, p.3179 dated 15.12.1998. We need to emphasize that the expert staff in the electro distribution firms for transfer and production of electrical power, as well as the one working in the industrial objects, is obligated by law to obtain certificates for management with energy objects, devices and equipment. The chosen tool for this project is the Oracle iLearning system. This system is a learning management system that allows the students to interact with the contents and instructors and choose their own progress pace.

**Keywords:** Distance learning, specialized exams, Oracle iLearning.
