THE DESIGN AND THE FUNCTIONS OF THE ENERGY REGULATORY COMMISSION OF THE REPUBLIC OF MACEDONIA

ABSTRACT

In this paper, the design, the objectives and the functions of the Energy Regulatory Commission of Republic of Macedonia are presented. Energy Regulatory Commission is founded in order to provide safe, continuous and secure power supply to the consumers and to initiate and to protect competitive energy market on the basis of the principles of objectivity, transparency and non-discrimination. The Energy Regulatory Commission of Republic of Macedonia compliance with the provisions and requirements given with the EU Directive 96/92 EC and EU Directives 2003/54 and 2003/55, the Athens process, the Memorandum of Understanding – 2002 and the Memorandum of Understanding – 2003. The Energy Regulatory Commission participates in the South East Europe Electricity Regulation Committee and contributes in creation of South East Europe Electricity Market and its integration in the European Internal Electricity Market.

Keywords: Energy Regulatory Commission, Athens process, Memorandum of Understanding.
